MEET YOUR TRAINER: DR. ANGELIKA PLATE

Dr. Angelika Plate is editor of the revised version of ISO/IEC 27002 (former ISO/IEC 17799), of the accreditation standard ISO/IEC 27006, and currently edits the new standard ISO/IEC 27007.

She also supported and contributed to the development of ISO/IEC 27001, the international version of BS 7799-2.

WHO SHOULD ATTEND

IT and information security professionals who, through their involvement in managing or directing their organisation's IT infrastructure, are responsible for establishing and maintaining information security policies, practices and procedures. Additionally: System Administrators, Telecommunications Managers, Corporate Security Managers and Safety and Continuity Planning Managers will also benefit.

This seminar will also be of value to financial and operational audit professionals as well as non-IT professionals tasked with the responsibility of assessing their organisation's IT operations, infrastructure and security.

ACKNOWLEDGEMENTS

The workshop is hosted by the Asociatia de Standardizare din România (ASRO) and co-financed by the Swedish International Development Cooperation Agency (Sida).
